On the mountains:

In the combinations which they make, towering above each other, or lifting themselves in ridges like the waves of a tumultuous sea, and in the beauty and variety of their surfaces and colours, they are surpassed by none.

WELCOME

Buck Yeats Lodge Park

World Heritage Site, The Lake District National Park is England's largest National Park covering an area of 2,362 square kilometres. The Lake District is a popular holiday destination famous for its lakes, forests, fells and mountains, and its association with William Wordsworth, Beatrix Potter and John Ruskin.

Windermere is England's longest lake, at 10.5 miles long, one mile wide and 220 feet deep. Located in the heart of UNESCO World Heritage Site, Windermere offers the perfect escape for those with a love of the water and outdoor lifestyle with a splash of luxury thrown in! Windermere is one of the prime destinations for water sports in the Lake District with several Marinas, Sailing and Windsurfing Clubs along its shores.

You can do as little or as much as you like, it's your secret escape after all.

We have the location, what do you like to do?
