Emily's gift

Supporting children
with cancer in Gloucestershire

The pain of a childhood cancer diagnosis is indescribable, emotional support is desperately needed now. In 1995, Julie Kent and her husband Bernard's first daughter Emily died of a brain tumour when she was just three years old. Since then they have thrown themselves into fundraising for children with cancer in Gloucestershire.

Emily's Gift new aim for 2025 is to fund a Blood Sampling Machine for the Emily Kent Unit in Gloucestershire which will prevent the children with cancer and their families waiting for the results.

The new machine will mean results can be processed in just 45 seconds without leaving the unit, reducing the waiting period and easing the anxiety for families and children dealing with cancer.
