TEA SELECTION

The Guardsman is very proud to serve Hope & Glory tea. This British company produces unique, hand picked, loose leafed teas. Ingredients are sourced from ethical growers across the world. Their motto is: Never take for granted those daily cups of tea – don't settle for less, let your tea be the best it can be!

English breakfast

A lively, full-bodied blend of Assam and Ceylon organic black teas. Assam provides body and thickness to the tea while Ceylon gives it brightness and citrus character. This blend is best served with milk

Darjeeling

Known as the Champagne of teas, Darjeeling represents less than 5% of Indian tea production, but is the country's most famous tea, and is renowned the world over for its muscatel, fruity and floral character.

Earl Grey

This premium-quality Earl Grey tea is scented with natural Bergamot oil, which is made from a hybrid of sweet lime. This lends a distinct citrus character to Earl Grey.

Rooibos

This smooth, mellow tisane is made from the finest organic leaves of the Rooibos or Red Bush plant in the Cederberg mountains of South Africa. Rooibos produces a wonderful, deep amber brew that is naturally sweet and smooth.

Chamomile

This is a smooth, mellow tisane with a subtle flavour. Only the finest whole chamomile heads have been selected for this organic infusion, producing a light and delicate brew.

Green Tea

This green tea is hand-rolled in a hot, dry wok by the tea master, which helps to capture the full complexity of taste. When brewed, it releases notes of chestnut and the sweet aromas of a freshly mown summer meadow.

Jasmine

A classic, hand-rolled green tea with the delicate and clean scent of Jasmine. Made from organic, whole-leaf tea

Lapsang Souchong

This rare, smoky blend has deep aromas, unique flavours and sparkling liquor. The Lapsang Souchong is grown in China and is a single-estate tea.

COFFEE SELECTION

Americano, Cappuccino, Latte, Flat White or Espresso
*Available with whole, semi, skimmed milk,
oat, almond or soya alternatives*
