POST COVID RECOVERY

Long COVID refers to an extended experience of COVID-19 symptoms without recovery for several weeks or months after the start of their symptoms. Symptoms range from headaches, reduced ability to smell or taste, fatigue, to respiratory system issues, sleep disorders, pain, cognitive & neurological impairment. As per Ayurveda, the extended post infection phase is the result of lower immunity & imbalanced bio-energies lodged in the tissue & waste systems. Hence the treatment protocol is to build immunity, nourish & revitalize all systems.
